

A QUARRY DESIGN HANDBOOK

CONTENTS

[INTRODUCTION TO THE HANDBOOK AND FOREWORD](#)

INTRODUCTION AND ACKNOWLEDGEMENTS

THE NEED FOR QUARRY DESIGN	2
THE PURPOSE OF THE HANDBOOK	3
STRUCTURE AND CONTENTS	3
HANDBOOK AT A GLANCE	4
FURTHER INTRODUCTORY MATERIALS	5

[PART I](#) **THE CONTEXT FOR QUARRY DESIGN**

[CHAPTER 1](#) **UNDERSTANDING THE PLANNING AND LICENSING PROCESS**

1.1	The role of Government, Authorities and Statutory Consultees	1-3
1.2	The relevant Acts of Parliament and other Mineral/Planning Legislation.....	1-4
1.3	Government Planning, Mineral and other Policy Guidance.....	1-4
1.4	The roles and responsibilities of competent and qualified persons	1-4
1.5	The role of the Regional or sub-Regional local authorities.....	1-4
1.6	The existence of any national or regional zoning relating to or restricting mineral extraction	1-4
1.7	The Application process including forms, costs and authorisations	1-5
1.8	The environmental assessment rules, regulations and process including screening and scoping.....	1-5
1.9	Any required stakeholder consultation process	1-5
1.10	The determination process and timescales.....	1-5
1.11	Any Appeal process	1-5
1.12	Any Conditions, Agreements and Obligations.....	1-5
1.13	Any Licence, Permit and regulatory compliance	1-5
1.14	Any Enforcement regime	1-6

CHAPTER 2 PRIMARY INFORMATION REQUIREMENTS

2.1	THE NEED FOR PRIMARY INFORMATION	2-2
2.2	MINIMUM LAND REQUIREMENTS	2-2
2.3	LEGAL	2-3
2.4	PLANNING	2-3
2.5	SITE	2-4
2.6	ENVIRONMENTAL	2-5
2.7	SAFETY	2-6
2.8	COMMERCIAL/FINANCIAL	2-6

CHAPTER 3 SITE SELECTION

3.1	DEMAND/NEED	3-3
3.2	NEW SITES/EXTENSIONS	3-3
3.3	INVESTIGATIONS & ASSESSMENTS	3-3
3.4	CONSIDERATION OF ALTERNATIVES	3-4
3.5	COMPANY STRATEGY	3-4
3.6	QUARRY DESIGN PROCESS	3-4

PART II THE QUARRY DESIGN PROCESS

CHAPTER 4 DESIGN OF THE OPERATION AND ITS RESTORATION

4.1	INTRODUCTION	4-3
4.2	ESTABLISHING THE DESIGN BRIEF (design stage i)	4-6
4.2.1	Objectives	4-6
4.2.2	Technical requirements	4-7
4.2.3	Information requirements	4-8
4.2.4	Deliverables	4-8
4.3	CONCEPTUAL DESIGN, OPTION SELECTION AND FEASIBILITY STUDY (design stage ii)	4-9
4.3.1	Objectives	4-9
4.3.2	Design requirements	4-10
4.3.3	Information requirements	4-11
4.3.4	Deliverables	4-11
4.4	DESIGN OF THE FINAL VOID AND RESTORATION SCHEME (design stage iii)	4-13
4.4.1	Objectives	4-13
4.4.2	Design requirements	4-13
4.4.3	Information requirements	4-13
4.4.4	Deliverables	4-14

4.5 DESIGN OF PHASED WORKING AND RESTORATION SCHEME (design stage iv) 4-17

4.5.1 Objectives 4-17

4.5.2 Design requirements..... 4-17

4.5.3 Information requirements 4-17

4.5.4 Deliverables 4-18

4.6 PRE-PRODUCTION REQUIREMENTS (design phase vi) 4-21

4.6.1 Objectives 4-21

4.6.2 Design requirements..... 4-21

4.6.3 Information requirements 4-22

4.6.4 Deliverables 4-22

CHAPTER 5 INFORMATION REQUIREMENTS AND INVESTIGATIONS

5.1 INFORMATION TO SUPPORT ESTABLISHMENT OF THE BRIEF 5-4

5.2 SITE PLAN 5-5

 Why?..... 5-5

 What & How? 5-5

 Who? 5-6

 Input into the design process 5-6

Design of the operation and its restoration, and environmental assessment 5-6

Safety 5-7

Costs and benefits..... 5-7

5.3 GEOLOGY 5-7

 Why?..... 5-7

 What & How? 5-8

Desk Study 5-8

Design and notification of site Investigation 5-8

Investigation 5-9

Reporting to support quarry design..... 5-9

 Who? 5-9

 Input into the design process 5-10

Design of the operation and its restoration, and environmental assessment 5-10

Safety 5-11

Costs and benefits..... 5-11

5.4 SURFACE WATER..... 5-11

 Why?..... 5-11

 What & How? 5-12

Background desk study..... 5-12

Site investigations 5-13

Analysis and consultations 5-13

 Who? 5-13

 Input into the design process 5-13

Design of the operation and its restoration and environmental assessment 5-13

Safety 5-13

Costs and benefits..... 5-13

5.5	GROUNDWATER	5-14
	Why?.....	5-14
	What & How?	5-14
	<i>Desk study</i>	5-14
	<i>Baseline investigations</i>	5-15
	<i>Conceptual modelling</i>	5-15
	<i>Further site investigations</i>	5-16
	Who?	5-16
	Input into the design process	5-16
	<i>Design of the operation and its restoration, and environmental assessment</i>	5-16
	<i>Safety</i>	5-16
	<i>Costs and benefits</i>	5-26
5.6	LANDSCAPE AND VISUAL.....	5-17
	Why?.....	5-17
	What & How?	5-17
	<i>Background desk study</i>	5-17
	<i>Site visits and investigations</i>	5-18
	Who?	5-18
	Input into the design process	5-18
	<i>Design of the operation and its restoration, and environmental assessment</i>	5-18
	<i>Costs and benefits</i>	5-19
5.7	NOISE, DUST AND VIBRATION	5-19
	Why?.....	5-19
	What & How?	5-19
	<i>Background desk study</i>	5-19
	<i>Site visits and investigations</i>	5-20
	Who?	5-20
	Input into the design process	5-20
	<i>Design of the operation and its restoration, and environmental assessment</i>	5-20
	<i>Safety</i>	5-20
	<i>Costs and benefits</i>	5-21
5.8	TRAFFIC.....	5-21
	Why?.....	5-21
	What & How?	5-21
	<i>Background desk study</i>	5-21
	<i>Site/surrounding investigation</i>	5-22
	Who?	5-22
	Input into the design process	5-22
	<i>Design of the operation and its restoration, and environmental assessment</i>	5-22
	<i>Safety</i>	5-22
	<i>Costs and benefits</i>	5-22
5.9	ECOLOGY	5-23
	Why?.....	5-23
	What & How?	5-23
	<i>Background desk study</i>	5-23
	<i>Site visits and investigations</i>	5-23
	Who?	5-23
	Input into the design process	5-24

	<i>Design of the operation and its restoration, and environmental assessment</i>	5-24
	<i>Costs and benefits</i>	5-24
5.10	GEOCONSERVATION	5-24
	Why?.....	5-24
	What & How?	5-25
	Who?	5-25
	Input into the design process	5-25
	<i>Environmental assessment</i>	5-26
	<i>Safety</i>	5-26
	<i>Costs and benefits</i>	5-26
5.11	ARCHAEOLOGY/CULTURAL HERITAGE	5-26
	Why?.....	5-26
	What & How?	5-26
	<i>Background desk study</i>	5-27
	<i>Site visits and investigations</i>	5-27
	Who?	5-27
	Input into the design process	5-27
	<i>Design of the operation and its restoration, and environmental assessment</i>	5-27
	<i>Costs and benefits</i>	5-28

CHAPTER 6 DESIGN RISK ASSESSMENT

6.1	INTRODUCTION	6-2
6.1.1	Elements of design risk assessment.....	6-2
6.1.2	Key terms.....	6-3
6.1.3	Environmental, operational and commercial risks.....	6-5
6.2	RISK ASSESSMENT	6-6
6.2.1	Description of action	6-7
6.2.2	Hazard identification	6-7
6.2.3	Identification of consequences.....	6-9
6.2.4	Estimation of the magnitude of consequences	6-9
6.2.5	Magnitude of consequences	6-10
	<i>Magnitude of environmental consequences</i>	6-10
	<i>Magnitude of operational consequences</i>	6-10
	<i>Magnitude of commercial consequences</i>	6-12
6.2.6	Estimation of the probability of consequences	6-13
6.2.7	Risk estimation.....	6-13
6.2.8	Risk evaluation.....	6-14
6.2.9	Risk perception	6-15
6.2.10	Reviewing the process.....	6-16
6.3	DEVELOPMENT AND MAINTENANCE OF A RISK REGISTER	6-17

PART III DELIVERING SUCCESSFUL QUARRY DESIGN

CHAPTER 7 CONSULTATION AND COMMUNICATION

7.1	CONSULTATION.....	7-2
7.1.1	Stakeholder groups.....	7-2
	<i>Local, Regional and National Government</i>	7-2
	<i>Statutory Consultees</i>	7-3
	<i>Non statutory consultees</i>	7-4
	<i>Public consultees</i>	7-5
7.1.2	Existing methods of public Consultation in the quarrying industry	7-5
	<i>One to one meetings</i>	7-6
	<i>Liaison groups:</i>	7-6
	<i>Public exhibitions:</i>	7-6
	<i>Quarry open days:</i>	7-7
	<i>Public meetings:</i>	7-7
7.1.3	Mineral Planning application decisions and public consultation	7-8
7.1.4	Stakeholder workshops.....	7-8
7.1.5	Issues and Concerns of Stakeholders	7-8
7.1.4	Successful consultation and engagement in the Quarry Design process	7-9
7.2	COMMUNICATION.....	7-10
7.2.1	Graphic Communication	7-10
	<i>Graphical visualisation techniques</i>	7-11
	<i>Spatial and Geographic Information Systems (SIS & GIS)</i>	7-12
7.2.2	Written Communication.....	7-12
7.2.3	Verbal communication	7-13

CHAPTER 8 MANAGING THE QUARRY DESIGN PROCESS

8.1	INTRODUCTION	8-2
8.2	PROJECT MANAGEMENT	8-2
8.2.1	Scope management.....	8-3
8.2.2	Time management.....	8-3
8.2.3	Cost resource management.....	8-3
8.2.4	Quality management.....	8-4
8.2.5	Human resources management.....	8-4
8.2.6	Communications management	8-5
8.2.7	Risk Management.....	8-5
8.2.8	Procurement management	8-6
8.3	SYSTEMS MANAGEMENT	8-6
8.3.1	Administration	8-6
8.3.2	Data Storage and retrieval	8-7
8.3.3	Information Technology (IT).....	8-7
8.3.4	Health & Safety	8-7
8.3.5	Operational management system	8-8
8.3.6	Quality management system	8-8
8.3.7	Environmental management systems	8-8

PART IV**APPENDICES SUPPORTING
CHAPTERS 1 AND 4**[APPENDIX 1-1](#)

THE PLANNING AND LICENSING PROCESS – ENGLAND

[APPENDIX 4-1](#)

RESOURCE EVALUATION FOR AGGREGATES

[APPENDIX 4-2](#)PRINCIPLES OF DESIGN FOR SAND AND GRAVEL
QUARRIES[APPENDIX 4-3](#)

PRINCIPLES OF DESIGN FOR HARD ROCK QUARRIES

[APPENDIX 4-4](#)

QUARRY SLOPE DESIGN

[APPENDIX 4-5](#)

HAULAGE METHODS AND HAUL ROAD DESIGN

[APPENDIX 4-6](#)ECONOMIC MODELLING FOR FEASIBILITY STUDIES AND
BUSINESS PLANNING**PART V****BIBLIOGRAPHY**
